Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This action is responsive to applicants' amendment and response received June 28, 2005. Claims 17-22 and 25-37 are currently pending with claims 35-37 withdrawn.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

All prior art rejections set forth in paper # 2/28/05 are withdrawn in view of applicants' amendment and response.

1. Claims 17-21 and 25-29, 33, and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Block et al, US 5,520,841.

Block et al teach alkaline cleaning concentrates comprising sodium hydroxide, sodium metasilicate, polyacrylic acid, and a nonionic surfactant base comprising a mixture of ethoxylated alcohol (high cloud point) and a butyl ether capped ethoxylated alcohol (low cloud point) (col. 7, example 1). As this reference meets all material limitations of the claims at hand, the reference is anticipatory.

Art Unit: 1751

2. Claims 17-21 and 25-29, 33, and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Lewis, US 5,612,305.

Lewis teaches dishwashing detergents comprising a mixture of alkaline builders and a nonionic surfactant mixture of ethoxylated alcohol (high cloud point) and a propylene oxide capped ethoxylated alcohol (low cloud point) (col. 18, example 22). As this reference meets all material limitations of the claims at hand, the reference is anticipatory.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 17-22, and 25-34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lewis, US 5,612,305 in view of Evans, US 5,218,980.

Lewis is relied upon as set forth above. Lewis does not teach a dishwashing method utilizing ultrasonic energy. Such a method, however, of utilizing ultrasonic energy in a dishwasher is well known in the art. Evans teaches an ultrasonic dishwashing system wherein a pre-wash, a wash, and a post-wash rinse is performed in a dishwashing apparatus in conjunction with ultrasonic energy (col. 4, lines 37-52). It would have been obvious to one of ordinary skill in the art to use the detergent of Lewis in conjunction

Art Unit: 1751

with the method of Evans as both the composition and method are well known in the art as a preferred composition and method for cleaning dishware.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
